

Physical Therapy Aide

INDUSTRY FACTS

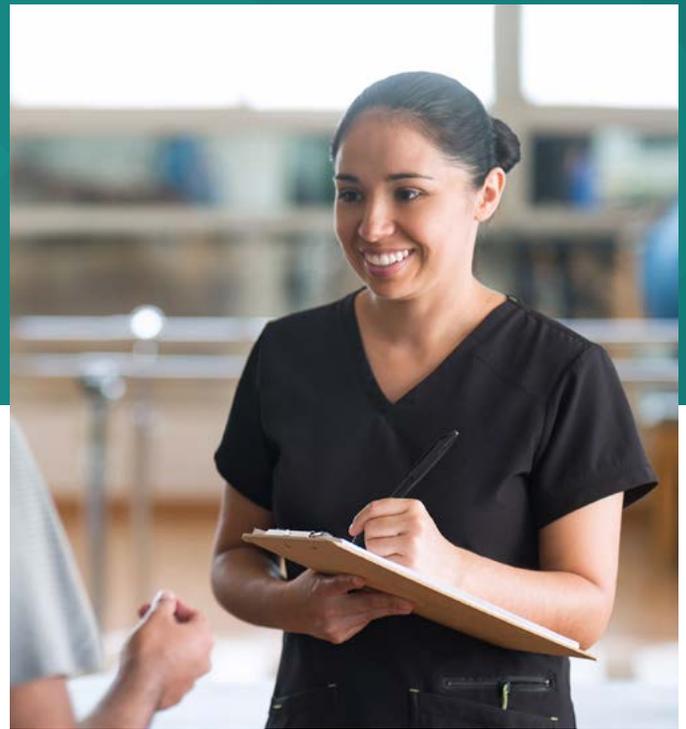

What do physical therapy aides do?

Physical therapy aides play a key role in the healthcare industry in keeping a physical therapy facility running smoothly. They work under the direction and supervision of a physical therapist to prepare patients for physical therapy and support administrative functions. Duties frequently include the following:

- Prepare equipment for patient treatments
- Relieve the therapist to perform professional duties
- Maintain order and cleanliness throughout the facility
- Assist therapist in selected procedures
- Aid in moving patients
- Organize work area and disinfect treatment area
- Perform clerical duties such as taking inventory and answering the phone
- Assist patients with paperwork when necessary

Where do physical therapy aides work?

Most physical therapy aides work in physical therapists' offices, hospitals, or nursing homes. Some evening and weekend hours may be necessary if hospitals and clinics have extended hours to meet the needs of their patients.

How much do physical therapy aides earn?

With opportunities nationwide, physical therapy aides can earn competitive salaries. The U.S. Department of Labor reports that the average income for a physical therapy aide is \$25,680 a year.

Is the physical therapy aide field growing?

The U.S. outpatient rehabilitation market, one of the largest segments of the physical therapy market, is part of the rapidly growing healthcare industry.* With the expanding market, the need for physical therapists is not able to keep pace with demand, making room for more physical therapy aides. New physical therapy aide jobs alone are on course to increase by 30% before 2026.*

*U.S. Department of Labor, Bureau of Labor Statistics

"I couldn't be happier with the program. The course material was so thorough, and it was presented in a way that was really easy to understand on your own."

Physical Therapy Aide

PROGRAM DETAILS

Improve Your Life

In less than 4 months, you can be prepared for a successful new career as a physical therapy aide! With this training program, you'll have everything you need to get a good job in the healthcare industry and position yourself for other jobs in physical therapy and healthcare.

Prepare For A Better Job

Train affordably without sacrificing quality. This program's comprehensive training was developed by industry professionals with years of experience. The program is specially designed to help you succeed:

- Train to aid in patient care
- Help secure a job in the rapidly growing healthcare industry
- Give the knowledge and skills you need to begin working immediately upon completion

Learn At Home

Online training minimizes the challenges of taking time out to return to school. The online training format offers distinct advantages:

- Study on a schedule that fits your life
- Progress at a pace that matches your learning style
- Enjoy the flexibility to adjust the time and effort you devote to your coursework each day

Achieve Success With Live Learner And Career Support

Our program is designed to help you accomplish your goal of getting a job. In addition to employer-trusted training and online flexibility, you'll also have one-on-one access to three support teams—learner support, technical support, and career support—to ensure you can complete your training and prepare for a better future! All of these support teams are committed to helping you:

- Complete your training quickly
- Prepare for your exam
- Successfully move into the workforce

Program Modules and Approximate Completion Hours

Module	Hours
Program Orientation	1
