

# DRG Recharge

Grow more confident with DRG Coding

Learn how to report comorbidities (CCs) and major comorbidities (MCCs) and their impacts on DRG assignment as well as the importance of severity of illness (SOI) and risk of mortality (ROM) on case mix index (CMI) and hospital/physician profiling. Tailor your current experience by training in topics that will help you the most. A Career Step DRG Recharge will help you gain the new knowledge you need to be at the top of your field.

## Recharge and Refresh Your Skills

Can you be certain you're not losing money after ICD-10 changed the nuances of DRGs? Increase your confidence that your organization is being properly reimbursed with our 3 professionally designed DRG courses. When you enroll in Career Step's DRG Recharge program, you'll boost your DRG knowledge and keep your skills at expert levels.

The DRG Recharge program provides courses to fine-tune your abilities in DRG in as little as 60 minutes. Whether you've been coding for 1 year or 10, staying up to date on industry standards will help you maintain your edge. Refresh your skills with subjects specifically created to improve your efficiency and make you current in your coding career.

Our modules meet all 2017 coding updates and are preapproved to provide you with continuing education credits through AHIMA and AAPC.
