

Applied PCS Program

Become confident in your ICD-10-PCS coding

ICD-10-PCS is a vast, complex coding system that requires a different code for each distinct medical procedure. Our Applied PCS program is a vigorous crash course that gives you in-depth information and then allows you to practice your newly acquired skills and accurately assign PCS codes. You'll first learn about biomedical sciences and how important it is to PCS coding. Then you move to advanced PCS and complete case studies both online and in the included textbook, ICD-10-PCS: An Applied Approach, AHIMA.

Advance Your Career with Applied PCS

Want to master all the intricacies of ICD-10-PCS? Need to learn how to do inpatient coding? With Career Step's Applied PCS program, you can excel in your organization and advance your career. You'll gain a solid expertise in ICD-10-PCS when you enroll in our online Applied PCS program today.

Career Step's Applied PCS program helps you learn, hone, and practice your skills in ICD-10-PCS coding with a robust start-to-finish course. This program is designed for coders who want additional practice in PCS or for outpatient coders who want to transition to inpatient coding.

The Applied PCS course meets all 2017 coding updates and is preapproved to provide you with 40 continuing education credits through AHIMA and AAPC.

Develop your skills in ICD-10-PCS!
