

Healthcare IT Professional

INDUSTRY FACTS

What do healthcare information technicians do?

What is health information technology, exactly, and what does a health information technician do? Well, from a bird's-eye view, health information technology is the secure management of health information across computerized systems, and health information technicians work behind the scenes in healthcare facilities to improve patient care through tech.

Here's a breakdown of their responsibilities:

- Obtaining, processing, and recording healthcare data.
- Ensuring information quality and security.
- Installing and administering basic computer systems and networks.
- Determining hardware and interface problems and providing support.

Where do they work?

Healthcare information technicians work in a variety of healthcare facilities such as hospitals, physicians' offices, home healthcare agencies, nursing homes, public health offices, and insurance companies.

How much do they earn?

Pay rates vary depending on geographic location and experience, and HIT professionals often qualify for traditional employment benefits. Payscale.com reports that the average salary is around \$48,534 per year.*

How's the job outlook?

Overall employment in computer and information technology occupations is projected to grow much faster than the average for all occupations from 2022 to 2032. About 377,500 openings are projected each year, on average, in these occupations due to employment growth and the need to replace workers who leave the occupations permanently.**

Healthcare IT Professional

PROGRAM DETAILS

Prepare For A Better Job

Train affordably without sacrificing quality. This program's comprehensive training was developed by industry professionals with years of experience – specifically designed to help you prepare for the CompTIA A+ exams.

Learn Your Way (From Home)

With online training, you can absorb more knowledge and learn more skills—fast.

- Study on a schedule that fits your life
- Progress at a pace that matches your learning style
- Adjust the time and effort you devote to your coursework each day

Receive Coaching and Guidance

When you train with CareerStep, we back you every step of the way—from enrollment through course completion.

- Learner support
- Technical support
- Career support

Get Certified

We'll help you prepare to take nationally recognized exams so you can explore greater opportunities in your area.

- **CompTIA: A+**

Program Modules and Approximate Completion Hours

Module
Program Orientation: Healthcare IT Professional
Computer Fundamentals
Introduction to Healthcare Information Technology
Health Information Management
Coding Basics
Telehealth for Clinical Support
Microsoft Office 2019: Foundations Course
A+ Core 1
A+ Core 2
Principles of Information Security
Service Desk Professional
Computer User Support
Program Completion: Healthcare IT Professional
