

# Top 5 Reasons to Choose CareerStep

Our online career-training programs can help you make the most of your future because they offer:

- ✓ **Fast track to completion**  
These courses are designed to get you in, out, and working in less than a year.
- ✓ **Flexible, convenient online training**  
The online format of the program lets you study on a schedule and at a pace that fits your lifestyle.
- ✓ **Career-specific education**  
Choose training with employer recommendations and certificate preparation included to ensure you have the skills employers are looking for.
- ✓ **Job search support**  
Our training programs include support while you're learning as well as looking for a job after completion.
- ✓ **Affordable**  
Quickly and affordably finance your training. Our low-cost training can save you hundreds when compared to other training programs.

# Get In, Get Out, Get Working.

Training that gets results  
for your students!

## Get In

A CareerStep education provides students the training they need to start a successful career in a growing, in-demand field in as little as 12 months. Comprehensive online curriculum, reference materials and textbooks, instructor support, and job search help is all included in our one-time payment.

## Get Out

Training for a new career doesn't have to take years. With the right program and a quality support team, students can be out of school and career ready in a matter of months. You have a full 6-12 months of online course access so that you can train at the pace that works best for you.

## Get Working

After completion students will be ready to earn important industry certifications that prove their skills to employers and set them apart from other applicants. Our Career Advisors can help them turn their education into a job with interview tips, resume reviews, and job search advice.
