

# Applied PCS

## COURSE DETAILS

### Improve Your Life

When it comes to career training, you'll find a lot of posers out there. Con artists that'll try to impress you with fancy hyperbole. But through all the noise, the distinct

sound of success can be heard. Your success. All it takes is a little push. A nudge in the right direction—and your whole life could change. New doors opened. New worlds discovered. New opportunities explored. With CareerStep, it all could happen in just four months.

### Elevate Your Skill Set

ICD-10-PCS is a vast, complex coding system that requires a different code for each medical procedure. Our Applied PCS program provides in-depth information and allows you to practice your newly acquired skills. You'll learn about biomedical sciences and how important it is to PCS coding. Then, you'll move to advanced PCS and complete case studies.

### Learn Your Way (From Home)

With online training, teams can absorb more knowledge and learn more skills—fast.

- Study on a schedule that fits your life
- Progress at a pace that matches your learning style
- Adjust the time and effort you devote to your coursework each day

### Receive Coaching and Guidance

When you train with CareerStep, we back you every step of the way—from enrollment through course completion.

- Learner support
- Technical support
