CompTIA Network+

PROGRAM DETAILS

Improve Your Life

When it comes to career training, you'll find a lot of posers out there. Con artists that'll try to impress you with fancy hyperbole. But through all the noise, the distinct sound of success can be heard. Your success. All it takes is a little push. A nudge in the right direction—and your whole life could change. New doors opened. New worlds discovered. And new opportunities explored.

Prepare for a Better Job

Technology is complicated. It moves fast. It's always evolving. And it's essential to the success of any business — big or small. That means there's plenty of opportunity for professionals with a knack for IT security, OS installation, and firewall maintenance.

But quality online IT certificate programs are few and far between. With our training, you'll gain the knowledge and skills you need to install, configure, and maintain a network for a small business.

Learn Your Way

With online training, you can absorb more knowledge and learn more skills—fast.

- Study on a schedule that fits your life
- Progress at a pace that matches your learning style
- Adjust the time and effort you devote to your coursework each day

Receive Coaching and Guidance

When you train with CareerStep, we back you every step of the way—from enrollment through course completion.

- Learner support
- Technical support
- Career support

Get 3rd-Party Certified

We'll prepare you to take nationally recognized exams so you can explore greater opportunities in your area. We'll provide one free exam voucher so you can earn your certification at no additional cost.

- **CompTIA Network+ N10-007**
  This credential certifies that you possess the essential skills needed to design, configure, and troubleshoot both wired and wireless devices**.**
