MACRA-MIPS PI Management

LEARNING OBJECTIVES

The Merit-Based Incentive Payment System (MIPS) rewards Medicare clinicians for providing high-quality, efficient care through success in four performance categories: Quality, Promoting Interoperability, Improvement Activities, and Cost. It's a quality-over-quantity model design to simplify reporting, cut costs, and improve the overall patient experience.

CareerStep's MACRA-MIPS PI Management course is designed for eligible healthcare professionals. It focuses on the Promoting Interoperability portion (PI) of MIPS — which replaces the Meaningful Use program and makes up a significant share (25%) of a clinician's MIPS score.

This course is fully accredited for continuing education, CE / CME and credential renewal for Physicians / PAs, Nurses / RNs / LPNs, CHCIOs, CAHIMs and CPHIMs managers.

Understanding MACRA, MIPS, and APM

- Discuss and compare the meanings and differences of MACRA, MIPS, and APM.

Introduction to PI for MIPS ECs

- Get a high-level overview of PI.

PI Reporting Options for 2020

- Discuss your options for submitting data regarding PI.

PI Category Scoring

- Learn how PI impacts a clinician's overall MIPS score.

e-Prescribing Objective & Measures

- Discuss the benefits of embracing e-Prescribing: increase efficiency, reduce waste, etc.

Health Information Exchange

- Learn how to access and share a patient's health information and history without jeopardizing privacy.

Provider to Patient Exchange

- Outline the best practices for protecting and exchanging Patient Health Information (PHI).

Submitting Data & Getting Feedback

- Learn how to improve scores by taking and implementing feedback based on data.

Course Exam

- Test your knowledge.
