

MACRA-MIPS Quality Professional

LEARNING OBJECTIVES

Within the MIPS structure, four performance categories impact a clinician's reputation and financial success: Quality, Promoting Interoperability, Improvement Activities, and Cost.

Each performance category carries a specific weight that contributes to the MIPS Final Score.

CareerStep's MACRA-MIPS Quality Professional course is designed for eligible healthcare professionals. It focuses on the Quality portion of MIPS – which makes up the bulk (45% in 2020 and 40% in 2021) of a clinician's MIPS score.

This course is fully accredited for continuing education, CE / CME and credential renewal for Physicians / PAs, Nurses / RNs / LPNs, CHCIOs, CAHIMs and CPHIMs managers.

Introduction to Quality for MIPS

- Learn how Quality impacts a clinician's overall MIPS score.

Background on Quality Measures

- Get insight into how measurements are determined.

Quality Measures

- Outline approximately 300 individual measurements of Quality.

Specialty Measure Sets

- Review the specialty measure sets for reporting.

Outcome Measures

- Learn how to measure the outcome of individual efforts.

An Introduction to Quality Reporting Methods

- Get an overview of how reporting works within MIPS.

Scoring the Quality Category

- Learn how Quality impacts a clinician's overall MIPS score.

Course Exam

- Test your knowledge.
