Medical Coding for Inpatient Services

LEARNING OBJECTIVES

Developed by professionals in the field and packed with relevant, interactive content, our skills-focused program will teach you the must-have skills employers expect from medical coding experts—particularly those who specialize in acute care. It's focused. It's current. And it'll have you job-ready in as little as 4 months.

Program Orientation

- Initiate the Medical Coding for Inpatient Services program.

Inpatient Coding

- Accurately assign and sequence ICD-10-CM diagnosis codes and ICD-10-PCS procedure codes according to official guidelines for inpatient services.
- Identify and describe different types of hospital facilities and their documentation and coding standards.
- Differentiate MS-DRG and APR-DRG reimbursement methodologies.
- Describe the query process and its impact on data integrity and reimbursement.

Advanced Inpatient Coding

- Demonstrate superior knowledge of current guidelines and regulations regarding coding, compliance, and reimbursement under the MS-DRG and APR-DRG systems.
- Develop expert skills by reviewing and assigning ICD-10-CM and ICD-10-PCS codes to intermediate to advanced inpatient coding cases.
- Obtain a next-level understanding of inpatient guidelines, coding, and reimbursement process.

Program Completion

- Prepare to take the next steps after program completion.
